**The National Multiple Sclerosis Society is dedicated to achieving a world free of MS.**

**The money you raise really does make a difference!**

Multiple sclerosis interrupts the flow of information from the brain to the body and stops people from moving. Every hour in the United States, someone is newly diagnosed with MS, an unpredictable, often disabling disease of the central nervous system. Symptoms range from numbness and tingling to blindness and paralysis. The progress, severity and specific symptoms of MS in any one person cannot yet be predicted, but advances in research and treatment are moving us closer to a world free of MS. Most people with MS are diagnosed between the ages of 20 and 50, with more than twice as many women as men being diagnosed with the disease. MS affects more than 400,000 people in the U.S. and 2.3 million worldwide.

The National Multiple Sclerosis Society:

- Helps each person address the challenges of living with MS through our 50-state network of chapters.
- Funds more MS research, provides more services to people with MS, offers more professional education and furthers more advocacy efforts than any other MS organization in the world.
- Provides local services to more than 19,000 people living with multiple sclerosis in our local communities.
- 80 cents of every dollar raised from the Bike MS: Coastal Challenge supports programs, education and research.
